Project: SJG Absecon Island
Location: Atlantic City, NJ

Project Details:

Aaron Enterprises, Inc. was contracted to install 12,600 LF of 12” steel gas main by HDD on a high-profile project in Atlantic City, NJ. AEI’s scope consisted of 6 HDD’s ranging from 1,200 LF to 2,800 LF in length. The rig up, exit side and pipe stringing locations were on Atlantic Ave which is the main road to the casino strip. Due to the extent of closures and detours the project was completed in the winter. Project schedule, execution and appearance was of high importance to the customer. This project was completed 2 months ahead of schedule with zero inadvertent returns while drilling.

Final Product: 12” Steel Gas Main
Geology: Low blow count sand, salt water
