Project: Jacobs Creek Project

Location: Bucks County, PA

Project Details:

Aaron Enterprises, Inc. was contracted to install 3,500 LF of 14" steel gas main by HDD on a project in central and eastern Pennsylvania. AEI's scope consisted of 2 HDD's and 1 auger bore; the project is part of upgrade work on a 14" line that crosses the state. Two high profile HDDs were completed on this project. A 2600 LF install under the Delaware River in 34,000 PSI meta-shale requiring 160 LF of 36" conductor casing and sound walls. A second 900 LF install of 14" was completed under I-81 in quartzite and coal seams.

Final Product: 3500 LF of 14" Steel Gas Main – Installed Under the Delaware River

Geology: Rock

Project Profile

Horizontal Directional Drilling

Completion Date

January 2023

Installation Methods:

Horizontal Directional Drilling

Markets Served:

Oil & Gas

Contractor:

Otis Eastern
