Project: ECMS 100046

Location: St. Thomas, PA

Project Details:

Aaron Enterprises, Inc. was contracted to install 72" of RCP under US Route 30 in St. Thomas PA. Geology in the area consisted of gravel and sand and needed to be stabilized prior to Tunnel Boring. An Akkerman TBM was used to install the RCP. Minimal back grouting was needed due to the pretreatment of the soils.

Final Product: 130 LF of 72" Reinforced Concrete Pipe

Geology: Loose gravel, sand and silt

Project Profile

Pipe Jacking & Tunneling

Completion Date

June 2021

Installation Methods:

Tunnel Boring
Soil Stabilization
